Intro: Hammock in 5 minutes.

this Instructable shows one how to make a fully functional hammock in under 5 minutes with household supplies.

Step 1: Materials

Materials:

Sheet (twin)

knife (Or anything that cuts)

10 feet of rope.

Step 2: Preparing the sheet

cut the sheet in half lengthwise, or at about 2 1/2 ft from the edge if its not a twin.

Step 3: Tying the rope.

cut the rope in half, and tie each piece to the ends of the sheet using the sheet-bend knot. <http://www.animatedknots.com/sheetbend/index.php> will show you how, if you don't know.

Step 4: Finishing

the last step: tie to a tree and relax.

Note- it may look incredibly thin, but it will widen when your in it.
